

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-24766

Stream : Little Calumet River

Applicant : *Indiana Department of Transportation
Richard L Phillabaum
100 North Senate Avenue, Room N642
Indianapolis, IN 46204-2216

Description : IDOT proposes to construct a lift station near the Little Calumet River. The lift station will be constructed in conjunction with the U.S. Army Corps of Engineers levee project. The lift station will be constructed south of the Little Calumet River and west of U.S. Highway 41. The majority of the lift station project site is a former railroad bed with ditches that have reverted to forested wetlands. The proposed lift station will alleviate over the road flooding of U.S. Highway 41 within the town of Highland. The proposed project will impact .24 acres of forested wetland. The wetland impacts were verified (USCOE File # 03-145-047-0) by the Detroit District on December 15, 2003. The impacts will involve the physical construction of the lift station. The construction of the lift station will require the placement of 5,000 cubic yards of structure backfill within the forested wetland in the project limits. The lift station has been designed to minimize the impact on wetlands within and adjacent to the project. The intake of the lift station will be placed above the normal water level within the wetland. As a result, the construction of the proposed wetland will not alter the hydrology in the forested wetlands adjacent to this project. Details of the project are contained in information and plans received at the Division of Water on March 14, 2008.

Location : Beginning approximately 1250' west and 3500' north of the Ridge Road and US Highway 41 intersection and extending approximately 1000' northeast and 700' northwest
DOWNSTREAM: near Highland, North Township, Lake County
S½, SE¼, Section 20, T 36N, R 9W, Highland Quadrangle
Quad Code: 4108754
UTM Coordinates: Downstream 4601926 North, 460406 East
UPSTREAM: Lake County

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

30 Day Public Notice Report

Application # : FW-24786

Stream : Logan Creek

Applicant : Steven Leist
Jean Leist
5381 Bischoff Hill Road
West Harrison, IN 47060-9533

Description : An unpermitted block retaining wall constructed in the floodway to protect an unpermitted private crossing has failed. The applicant is requesting to rework the retaining wall by reshaping the bank to conform with the existing banks upstream and downstream of the crossing. An Emergency Action permit is proposed. Details of the project are contained in information and plans received at the Division of Water on March 26, 2008.

Location : 5381 Bishoff Hill Road, approximately 2500' upstream of the State Road 46 stream crossing
near West Harrison, Logan Township, Dearborn County
NW¼, NW¼, SE¼, Section 7, T 7N, R 1W, Cedar Grove Quadrangle
Quad Code: 3908438
UTM Coordinates: Downstream 4350261 North, 679364 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-24793

Stream : Slab Camp Creek

Applicant : Michael A Iverson
24791 Hiltz Road
Guilford, IN 47022-9749

Description : An existing private access bridge located in the floodway of Slab Camp Creek was damaged by floodwaters and is proposed to be restored to its original condition. New concrete approaches will be installed and rock cover with concrete will be installed to prevent future movement. Elevations of the deck will remain the same. Details of the project are contained in information and plans received at the Division of Water on April 4, 2008.

Location : Approximately 25' upstream from the Unnamed Tributary to Slab Camp Creek confluence
DOWNSTREAM: near Guilford, Kelso Township, Dearborn County
SW¼, NE¼, NE¼, Section 36, T 6N, R 2W, Guilford Quadrangle
Quad Code: 3908428
UTM Coordinates: Downstream 4344436 North, 678371 East
UPSTREAM: Dearborn County

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-24796

Stream : Unnamed Tributary West
Fork White River

Applicant : Jing Yun Li Maxwell
8100 East 146th Street
Noblesville, IN 46060-4303

Description : We added an approximately 2 ft tall rise of land approximately 15 ft from the perimeter of the present house on the North side and each of the east and west sides of the house. The rise is approximately 150 ft from the normal stream that flows on the North side of the house. The rise/levee added fill was added at approximately a start point that is at the 18.5 ft flood level and stops at about the 20 foot flood level. In other words the levee was added to keep water from entering the house until the flood level exceeds 20 ft. Details of the project are contained in information received electronically at the Division of Water on April 8, 2008 and in plans and information received at the Division of Water on

Location : The project is located at 8100 East 146th street
There is a small stream that flows eastward on the North side of the property into the White river.
White River flows southward about 1/4 mile from this location.

at Noblesville, Noblesville Township, Hamilton County

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-24798

Stream : Jackson Creek

Applicant : City of Bloomington Engineering Department
Adrian Reid
401 N. Morton Street, Suite 130
Bloomington, IN 47404-3729

Description : The existing steel beam and concrete slab bridge carrying Roger's Road over Jackson Creek will be replaced with a new structure on essentially the same alignment to fix the structural deficiency of the bridge. The new structure will be a 20' x 9' x 46' long, precast concrete arch culvert. The new culvert will have an upstream and downstream invert elevation of 701.2 NAVD to match existing conditions. The culvert and headwalls will be perpendicular to the roadway to align with streamflow. Minor channel shaping will occur both downstream and upstream of the new culvert. The reshaped areas will be stabilized with an 18" thick layer of riprap over geotextiles. The roadway elevations will match the existing conditions over the culvert. W-shaped guardrails will be placed along each side of the roadway over the channel. The project is locally funded. Details of the project are contained in information received electronically at the Division of Water on April 9, 2008 and in plans and information received at the Division of Water on

Location : At the Rogers Road crossing of the creek approximately 400' east of South High Street
near Bloomington, Perry Township, Monroe County
Section 10, T 8N, R 1W, Bloomington Quadrangle
Quad Code: 3908625

Application # : PL-20987

Lake : Little Barbee Lake

Applicant : Barbee Lakes Property Owners Association
H Lewis Huston
101 EMS B61 Lane
Warsaw, IN 46582-6651

Description : The project site (Area 3) is located at the mouth of the inlet channel to Little Barbee Lake from Big Barbee Lake. An existing channel along the north shore will undergo maintenance dredging along 240' of the shoreline. Accumulated muck and debris will be removed from the lakebed by hydraulic dredging to a maximum depth of 4' below the lake's legal level at a distance of 20' lakeward of the shoreline and sloping uniformly to the shoreline. All excavated material will be transported to an upland containment area for dewatering and disposal. Water from the containment area will be filtered and return to the lake. Details of the project are contained in information and plans received at the Division of Water on April 1, 2008.

Location : Approximately 405' to 645' downstream of the Barbee Road channel crossing
DOWNSTREAM: near North Webster, Tippecanoe Township, Kosciusko County
N½, Section 28, T 33N, R 7E, North Webster Quadrangle

30 Day Public Notice Report

Application # : PL-20988

Lake : Kuhn Lake

Applicant : Greg Herman
P.O. Box 190
North Webster, IN 46555-0190

Description : An existing underwater beach will be improved in front of the property of the applicant on Kuhn Lake to prevent further beach erosion. A 6" layer of clean sand will be placed directly on top of the remaining sand. The placement will begin approximately even with western property line and will extend easterly across 59' of frontage. It will project lakeward for approximately 50'. Details of the project are contained in information received electronically at the Division of Water on April 4, 2008 and in plans and information received at the Division of Water on

Location : 60 EMS B20 B lane
near Pierceton, Tippecanoe Township, Kosciusko County
